TOGETHER, FOR NOW, AND OUR NEXT GENERATIONS

The 7 key areas for bbA in Amstelveen

1. Pleasant and affordable housing for all

- Build affordable housing (purchase/rent) for first-time buyers, singles, seniors, and families with average and middle incomes. 50% of available social housing units for Amstelveen residents. Goal: housing market mobility.
- Prioritise housing for key social groups, such as teachers and nurses
- Improve living environment by renovating and renewing neighbourhoods
- Preserve the character of our neighbourhoods and buildings and protect our monuments and Heempark nature reserves
- Replace any removed green space with equivalent planting in the same neighbourhood
- Protect green polders, such as the Bovenkerkerpolder, from development

2. Feasible and affordable sustainability for pleasant, green neighbourhoods

- Gas-free approach: pragmatic, feasible, affordable and reliable
- Combat climate change through more green space and vertical greening
- Take action to improve air quality and reduce CO2 emissions; measuring is knowing
- Protect and improve water quality
- Protect the Amsterdamse Bos, De Poel and the Heempark nature reserves
- Schiphol's growth should not come at the expense of health; reduce noise, fewer night flights

3. Focus on liveable, safe neighbourhoods and residential areas

- Combat nuisance and create liveable, clean and safe neighbourhoods
- Take steps to minimize theft, car, home and shop burglaries, digital crime, fraud and intimidation
- Improve footpaths and cycle paths, road safety around schools, shopping centres and sports complexes
- Fine-tune 30, 50 and 70 km/h speed limits
- Develop an excellent public transport network with stops within walking distance

- Central reporting point for unsafe places and street intimidation

4. Building a city where everyone is included and no one is excluded

- Invest in community centres, local coaches and platforms and promote groups that strengthen local connectivity
- Improve the organisation of youth care and tackle waiting lists
- Provide tailor-made solutions for our vulnerable people, including the lonely and homeless
- Active poverty reduction and promote better awareness of schemes
- Improve the approach to low literacy and language education
- Harmonious integration of internationals while preserving Amstelveen's identity
- Strict approach to domestic and sexual violence and child abuse

5. Taking care of our senior citizens

- Help the elderly continue living independently for longer
- Build better residential facilities for senior citizens; introduce a dedicated housing advisor for seniors
- Ensure sufficient capacity in our nursing homes
- Support and practical help for informal caregivers
- Increase the number of toilets at shopping centres

6. Making sports, arts and culture accessible to everyone

- Art and culture affordable and easily accessible
- Cultural education structurally incorporated into education
- Keep sports and play facilities in the neighbourhood – such as Sportlaan and Escapade
- Continue to support top sports and recreational sports with the necessary facilities
- Make sports and cultural facilities more sustainable
- New, energy-efficient swimming pool to replace De Meerkamp
- Make sure that all children can swim

7. Participation: residents not only participate, but also have real influence

- Involve Amstelveners in important decisions through active and timely participation

- Organise town and neighbourhood sessions when major changes are planned, with proper expectation management
- Encourage ‘ideas markets’ and citizens’ assemblies
- Restore trust in politics through an open and transparent governance culture
- Invest in the Youth Council (JovA)
